IT IS TIME

Our Dream can be a Reality if we work together...

We Need:

- A *Cultural Center* in the North Country where all cultures can be represented by their culture focusing on the contributions they have made to this world. And, those that have life experiences that are willing to share can openly do so with others from different cultures, as well as to learn from same.
- A *place* where all can learn about themselves and others, as well as their heritage that is the very essence of their roots.

Opportunities:

- A *place* where students can learn about the different cultures early in life without having to travel to other parts of the world.
- A *place* where our youth and elderly can work. (Job creation)
- A *place* maintained by the countries participating to avoid taxes on the local community.
- This will be "A *place*" where we could teach and learn uninhibited by fear of reprisal.

How to get started:

- One of the ways is to have *inmates* help and give back to society with their good intentions by working with the community, by helping with site preparation, and assisting with landscaping, as well as painting and all around maintenance required to keep the cultural center in functional and respectful condition. And, we should give acknowledgement to them by listing their names among those that contribute.
- Obtain *in-kind* support from businesses in each community by requesting that they donate whatever they can to build the outside structures, and having the different participating counties supply interior and all items to be shown that would best tell their history.

This brief overview is to give just a peek at the bigger picture. Let Us Begin.....

MEMBERSHIP STATUS NOMINATION

I wish to accept the nomination for membership status and look forward to serving in the following capacity:

- Active Board Member _____
(Resume Attached)
- Active supporting Member _____
- Non-active member _____

LEVEL OF FINANCIAL INDIVIDUAL MEMBERSHIP

- () 5 Stars-Life Time..... \$1,000.00
